

Model: ER 100

Serie: collection

New sophisticated design based on the tried-and-tested, patented functionality of Das Prinzip der Bequemlichkeit[®]. ER100 plays with the contrast between the technically sophisticated, matt brushed chromium-plated steel frame and the extremely comfortable cushions. Newly developed upholstery material for seat and back cushions with their down-like character offers an unprecedented level of seating comfort in all sitting and reclining positions.

The perfect contouring and superior workmanship become especially apparent in combination with the fascinating appeal of high-quality leather.

This product is only available in Korea and Taiwan.
